PROFESSIONAL SUMMARY

Full Stack and AI Automation Developer with hands-on experience building scalable web applications, RESTful APIs, and real-time systems using Next.js, React.js, FastAPI, Node.js, PostgreSQL, and MongoDB. Currently leading development of the COMSATS University Alumni Portal, a multi-role platform with SSO. Building LLM-powered applications and workflow automation with LangChain and LangGraph, backed by a solid foundation in API design, modular monolith and microservices architecture, and production-oriented delivery.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, C++, C#
AI / Automation: LangChain, LangGraph, AI Agents, Model Context Protocol (MCP), LLM-Powered Applications, Model Fine-Tuning, Workflow Automation
Frontend: React.js, Next.js, HTML5, Tailwind CSS, Bootstrap, Streamlit
Backend: FastAPI, Node.js, Express.js, ASP.NET, Socket.io, WebSockets
Databases: PostgreSQL, MongoDB
Architecture & Concepts: RESTful API Design, MVC, Modular Monolith, Microservices, SSO, Role-Based Access

EXPERIENCE

COMSATS University Islamabad **Present**
Full Stack Developer Intern (Project Lead)
- Lead development of the university Alumni Portal, a full-stack platform built with Next.js and FastAPI that serves alumni, students, industry partners, societies, and administrators.
- Design and build REST APIs and backend services for alumni profiles, mentorship, jobs and internships, community features, and portal integrations.

DeveloperHub **6 Weeks**
Full Stack Developer Intern
- Built and shipped full-stack web application features end to end, integrating third-party and internal APIs into responsive, mobile-friendly interfaces.
- Collaborated with senior engineers on scalable backend design and day-to-day software delivery workflows.

Mobilink **3 Months**
ASP.NET Developer Intern
- Developed backend features and database integrations for enterprise-grade ASP.NET web applications.
- Debugged production issues and delivered new features, helping keep the codebase scalable and maintainable.

FEATURED PROJECTS

Alumni Portal | *Next.js, FastAPI, PostgreSQL, REST APIs, SSO*
- Developed a centralized alumni platform with role-based workflows for alumni, students, industry, societies, and administrators.
- Implemented modules for alumni profiles, mentorship, jobs and internships, community discussions, notifications, and university SSO integration.

NewsMirror (Final Year Project) | *Model Fine-Tuning, FastAPI, Next.js*
- Fine-tuned machine learning models to power NewsMirror, a news platform built as my final year project.
- Built a FastAPI backend serving model inference over REST APIs, with a Next.js frontend.

AI Chatbot | *LangGraph, LangChain, Gemini API, Streamlit*
- Built a conversational chatbot with LangGraph for stateful conversation flow and LangChain for LLM orchestration.
- Integrated the Google Gemini 3.8 Flash-Lite API for response generation, with an interactive Streamlit frontend.

Doctor Management System | *React.js, Node.js, Express.js, MongoDB*
- Built a healthcare platform for patient appointments, medical records, and administrative workflows, with a scalable backend and a responsive interface for clinical staff and patients.

Real-Time Chat Application | *React.js, Node.js, Express.js, Socket.io*
- Engineered a real-time messaging platform with live, bidirectional communication over Socket.io and WebSockets, featuring efficient event handling and a low-latency interface.

EDUCATION

BS Computer Science **2023 – Present**
COMSATS University Islamabad

FSc Pre-Engineering **2020 – 2022**
Punjab College, Blue Area, Islamabad

CERTIFICATIONS

- **Introduction to Model Context Protocol** – Claude Academy, Anthropic — Aug 2026
- **Understand Google Cloud Agents** – Google — Aug 2026
